REMARKS

The amendment for claim 14 removes the rejection of that claim under 35 USC 112, second paragraph.

Claim 1 stands rejected under 35 USC 102 over Morgan et al whereas the examiner has indicated that claim 2 contains allowable subject matter. Claim 1 has been amended to include the locking means of claim 2, without limiting claim 1 to the locking means being provided on the ramp. Applicant submits that claim 1 is patentable over the disclosure of Morgan et al, in that Morgan et al does not disclose locking means as recited in claim 1, whether provided on a ramp or elsewhere. Applicant therefore submits that claim 1 is patentable. It follows that the dependent claims also are patentable.

Respectfully submitted,
